

8 Screens:

- Data 1: Used to plot a function
- Data 2: Used only to plot a second function
- Evaluator: Used for calculations, see the handout for proper syntax
- Matrix: Used for working with matrices, use the following format: [N1, N2, N3...]
- Plot: Used to choose how information is represented in the graph
- Wave: Used to control audio options
- Speech: Used to control voice options
- Calculator: Used like a regular handheld calculator—but evaluator is probably easier to use

Menus:

- File: General file tasks
- Options: Allows user to select from 8 screens in a non-visual manner
- Graph: Customization of graphs
- Help: Contains user manual

Frequently Used Hotkeys:

- F3: Display graph
- F5: Play data audibly
- F7: Smaller screen
- F8: Bigger screen
  
- ALT+F: Open File Menu
- ALT+O: Open Options Menu
- ALT+G: Open Graphing Menu
- ALT+H: Open Help Menu
